

ABOUT US

VINEXA Global Enterprises provides high-quality animal nutrition and premium cattle feed ingredients worldwide. Partnering closely with advanced processing mills and solvent extraction plants across India, we guarantee a reliable, year-round supply of nutritionally consistent feed

Our Core Strength

- ✓ Reliable supplier of high-protein meals, energy supplements, fiber feeds, and compound pellets
- ✓ Strong sourcing network with top mills ensuring consistent bulk supply
- ✓ Strict quality control for nutrients, moisture, and aflatoxin compliance
- ✓ Meets global export quality standards Offers customized packaging and private labeling
- ✓ Provides complete documentation, logistics, and shipping support

Cattle Feed Pellets (Compound Feed Pellets)

Cattle Feed Pellets are highly nutritious, scientifically blended all-in-one feeds pressed into compact pellet forms. Instead of feeding raw grains or grasses separately, these pellets combine energy, proteins, vitamins, and minerals into a single bite. This ensures animals cannot pick out only what they like, giving them uniform, balanced nutrition in every meal.

KEY FEATURES

- Highly digestible formula that directly increases daily milk yield and improves the overall health of dairy and livestock animals.
- Solid pellet form prevents dust and stops feed from scattering, ensuring maximum consumption and minimal waste.
- Carefully balanced fiber and grain ratios keep the animal's stomach (rumen) healthy and active.

SPECIFICATIONS

- Crude Protein: 18% – 22% Min
- Crude Fat: 3% – 4% Min
- Crude Fiber: 10% – 12% Max
- Moisture: 11% Max *(long shelf-life)*
- Pellet Size: 6mm / 8mm diameter pellets

PACKAGING

FFROM 1KG TO 50KG BAGS, PP / NON-WOVEN / JUTE BAGS OR AS PER CUSTOMER REQUIREMENT

SOURCED FROM

PUNJAB, HARYANA & GUJARAT

Soyabean Meal (Protein Supplement Feed)

Soyabean Meal is the global gold standard for livestock protein. After extracting soybean oil, this premium, high-protein meal is carefully processed to eliminate anti-nutritional factors, making it highly digestible and excellent for rapid livestock growth, tissue repair, and maximum milk yields.

KEY FEATURES

- Packed with an exceptional amount of protein (up to 48%) to maximize animal growth and vital health.
- Extremely easy for cattle, poultry, and fish to digest, ensuring zero nutritional waste.
- Contains the perfect natural balance of essential amino acids required for superior milk fat and muscle development.

SPECIFICATIONS

- Crude Protein: Min 46% – 48%
- Moisture: Max 12%
- Crude Fiber: Max 6%
- Sand / Silica: Max 1%
- Aflatoxin / Biosecurity: Strictly controlled under international safe limits.

PACKAGING

FFROM 1KG TO 50KG BAGS, PP / NON-WOVEN / JUTE BAGS OR AS PER CUSTOMER REQUIREMENT

SOURCED FROM

MADHYA PRADESH, MAHARASHTRA & RAJASTHAN

Wheat Bran – Fiber Feed

Wheat Bran is the nutritious outer layer of the wheat grain, separated during the milling process. It is widely used in livestock feeding because it keeps the animal's digestive system healthy, is highly palatable (tasty to animals), and provides an excellent source of energy and minerals..

KEY FEATURES

- It is rich in structural fiber, which stimulates healthy digestion, prevents bloating, and ensures smooth stomach movement in cattle.
- Animals love its texture and taste, making it great for mixing into daily feed rations to increase their overall food intake.
- It provides natural, essential minerals and vitamins that support overall bone strength, energy levels, and metabolic health.

SPECIFICATIONS

- Crude Protein: 14.0% – 15.0% Min.
- Crude Fiber: 11.0% – 12.0% Max.
- Moisture: 12.0% Max.
- Acid Insoluble Ash (Sand/Silica): 0.5% Max.
- Appearance: Clean, dry, and flake-like meal

PACKAGING

FFROM 1KG TO 50KG BAGS, PP / NON-WOVEN / JUTE BAGS OR AS PER CUSTOMER REQUIREMENT

SOURCED FROM

UTTAR PRADESH, PUNJAB & RAJASTHAN

Cottonseed Cake – Protein Feed

Cottonseed cake is a premium, high-quality residue left over after pressing oil out of cotton seeds. It is a highly favored feed for dairy cattle because it provides a rich combination of protein, energy, and fiber that naturally boosts milk fat content and keeps livestock healthy.

KEY FEATURES

- Highly rich in residual natural oils that directly help dairy animals produce richer, high-fat milk.
- Contains a unique blend of structural fiber and "bypass protein" that escapes early stomach digestion for better absorption.
- Possesses an aroma and taste that cattle love, making it easy to mix into everyday dairy rations.

SPECIFICATIONS

- Crude Protein: 22% – 24% Min.
- Crude Fat (Oil Content): 6% – 7% Min.
- Moisture: 10% Max.
- Crude Fiber: 14% Max.
- Form: Solid chunks, flakes, or broken cakes

PACKAGING

FFROM 1KG TO 50KG BAGS, PP / NON-WOVEN / JUTE BAGS OR AS PER CUSTOMER REQUIREMENT

SOURCED FROM

GUJARAT, MAHARASHTRA & TELANGANA

Mineral Mixture Feed – Mineral Supplement

A scientifically balanced mix of essential macro and micro minerals. It acts as a vital daily health booster to prevent nutritional deficiencies, strengthen bones, improve reproductive health, and maximize milk production in dairy cattle.

Key Features

- Contains bio-available trace minerals that directly boost animal fertility and reduce calving intervals.
- Provides the necessary ionic balance to sustain peak lactation and improve daily milk fat percentages.
- Prevents metabolic diseases like milk fever, strengthens skeletal structure, and builds overall disease resistance.

Specifications

- Calcium (Ca): Min 20.0% – 23.0%
- Phosphorus (P): Min 12.0%
- Magnesium (Mg): Min 5.0%
- Trace Minerals (Zinc, Manganese, Copper, Cobalt, Iodine): Enriched to meet international veterinary standards
- Moisture: Max 2.0% (Ultra-dry powder form for long shelf life)
- Heavy Metals (Lead, Arsenic, Fluorine): Strictly within safe global compliance limits

PACKAGING

FFROM 1KG TO 50KG BAGS, PP / NON-WOVEN / JUTE BAGS OR AS PER CUSTOMER REQUIREMENT

SOURCED FROM

MAHARASHTRA, GUJARAT & PUNJAB

Rice Bran De-oiled (DORB) – Energy Supplement

Rice Bran De-oiled (DORB) is the byproduct left after the oil is extracted from rice bran. It is a highly cost-effective energy source, acting as a rich base for balanced livestock and poultry feeds. Because it is "de-oiled," it has a longer shelf life and higher stability, making it an excellent carrier for other essential nutrients.

Key Features

- Provides a balanced level of starch and fiber, which helps maintain steady energy levels and supports consistent growth in livestock.
- Its pleasant taste and texture make it highly acceptable to animals, ensuring high feed intake and reducing waste.
- The removal of oil prevents rancidity, allowing the feed to stay fresh and nutrient-rich for longer periods during transit and storage.

Specifications

- Crude Protein (CP): Min 14.0% – 15.0%
- Crude Fiber (CF): Max 12.0% – 14.0%
- Sand Silica: Max 4.0% – 5.0%
- Moisture: Max 10.0% – 12.0%
- Appearance: Free-flowing, light brown powder, free from lumps and foreign matter.

PACKAGING

FFROM 1KG TO 50KG BAGS, PP / NON-WOVEN / JUTE BAGS OR AS PER CUSTOMER REQUIREMENT

SOURCED FROM

MAHARASHTRA, GUJARAT & PUNJAB
