AI Automation Agency

SERVICE MATRIX & DEPLOYMENT TIERS

A comprehensive breakdown of automation capabilities categorized by complexity, investment thresholds, and estimated engineering timelines.

Simple Tier Solutions

₹5k - ₹15k | 1 - 2 Days Build

AUTOMATION FLOW	FUNCTIONAL DESCRIPTION
• **Form Processing**	Auto-categorize form responses by submission type and immediately deliver structured data as an Excel or PDF document directly to the business owner.
• **WhatsApp Inquiry Lead-In**	Instantly auto-reply to new WhatsApp messages with business hours and FAQs, keeping prospects engaged while sending a notification to the owner.
• **Google Review Manager**	Automatically draft thank-you responses for new reviews. Negative reviews are instantly flagged and isolated for manual management.
• **Invoice Generation**	Triggers immediately when a client fills out an order form, auto-generating a professional PDF invoice and emailing it to the customer.
• **Event Reminders**	Track birthdays and anniversaries to automatically dispatch personalized discount coupons via WhatsApp or Email.
• **Social Media Scheduler**	Pasted content inside a central spreadsheet triggers automated scheduling and publishing to Instagram and Facebook at pre-set optimal hours.
• **Missed Call Marketing**	Instantly dispatch an automated SMS containing a callback link or self-service booking link whenever a phone call is missed.

Medium Tier Solutions

₹20k - ₹50k | 3 - 5 Days Build

AUTOMATION FLOW	FUNCTIONAL DESCRIPTION
• **Lead Scoring & Routing**	AI reads incoming ad or form responses, scores leads immediately (Hot/Warm/Cold), routes hot leads directly to the sales team, and auto-nurtures cold ones.
• **Appointment Retention**	Rigorous multi-stage reminder sequence (24-hour, 2-hour) requiring explicit confirmation. Flags high-risk no-shows directly to the front desk dashboard.
• **Review Routing Filter**	Triggered 2 hours post-service completion. Happy clients are directed to public review platforms, while unhappy customers are routed into a private feedback system.
• **Intelligent Stock Alerts**	Spreadsheet inventory monitoring mapped to AI forecasting to predict critical reorder thresholds, automatically alerting the owner or emailing suppliers directly.
• **Omni-Channel Inbox**	Unify WhatsApp, Email, and Instagram DMs into a single dashboard. Features real-time, context-aware AI-suggested replies for support agents.

Complex Tier Solutions

₹75k - ₹2L+ | 1 - 2 Weeks (Retainer Ready)

AUTOMATION FLOW	FUNCTIONAL DESCRIPTION
• **AI Sales Qualification Bot**	Engages inbound leads via text within 60 seconds. Interrogates budget/timeline constraints, scores potential, books open calendar slots, and runs full verification loops.
• **RAG Support Agent**	Connects to chat or WhatsApp channels. Pulls straight from internal company documentation, policies, and FAQs to resolve client inquiries autonomously, escalating only when uncertain.
• **Full Lifecycle Automation**	End-to-end operational orchestration: covers lead capture, drip nurturing, automated booking, fulfillment workflows, smart review extraction, and long-term customer reactivation.
• **AI Intelligence Pipeline**	Aggregates performance metrics across sales, ads, and reviews. AI translates raw metrics into narrative weekly performance summaries emailed automatically to stakeholders.
• **Voice AI Receptionist**	Handles inbound calls natively using Twilio and advanced AI Voice APIs. Converses fluently, reads customer intent, logs appointments directly, or transfers to a human line.
• **Document Processing**	Extracts key parameters (amounts, milestones, parties) from uploaded invoices or contracts using OCR and AI, mapping them directly to accounting tools while flagging anomalies.
